Hi Davis and Sean.

For tomorrow's call, I've attached the Surface Sediment FSP RTC check table. Nothing really major to discuss. Yellow highlights are for items such as SOPs and TSHAs that they state they will be providing later. We can and will remind them of that.

We've also completed our reviewed of the RLSO of the SW and Sediment Trap FSP that was provided by the Pre-RD Group last week. We found some minor issues we need to get clarified with them. This is attached and I recommend we use tomorrow's call on the Surface Sediment FSP RTCs to discuss these.
